

# FRAYSER

## COMMUNITY DEVELOPMENT CORPORATION

The mission of Frayser Community Development Corporation is to improve the quality of life in the Frayser area through housing, education and economic development by empowering all citizens to participate in these endeavors.

Frayser envisions a community where homes and streets are free of crime with homes revitalized, up-scaled, convenient and affordable to the various income levels of its residents. Frayser foresees a time when all schools should be of the best quality, both academically and structurally where parents are actively involved and participate in all community activities with pride and respect.

## FRAYSER COMMUNITY DEVELOPMENT CORPORATION

In October 2001, the City of Memphis awarded Frayser Community Development Corporation the Community Housing Development Organization (CHDO) designation and awarded capacity building funds. This designation by the City of Memphis was in answer to the community outcries of revitalization for the area, from the slum and blight it had deteriorated too.

The capacity funds will assist in hiring staff for the CDC and provide training in the area of housing development, board development, and financial management. We look forward to providing affordable housing, community service projects, safety, crime prevention, and business & economic development opportunities to our community.
